SUSTAINABILITY YEAR IN REVIEW!

Our Sustainability Year in Review! Join us on December 18th, 6:00 - 8:00pm, at the Joseph R. Robison Laurel Municipal Center to hear about our sustainability progress from the City and community. During the meeting, we will review the Sustainability Plan, will hear from residents about our successes, learn about new initiatives like Native Plants Landscaping for Stormwater runoff, and you can give us ideas on what you want us to focus on next. If you are interested in participating, we will be forming additional focus groups to work on specific actions highlighted in the Plan! All are welcome! Bring your ideas for 2026 and let's keep the momentum going! Refreshments will be served, so please **RSVP by December 12th** to mblair@laurel.md.us. To learn more, please contact us at greenliving@laurel.md.us. And a big thank you to everyone that filled out our short survey! It will help give us a better idea of how you, the residents, want us to keep you up to date on City events and programs!

Questions about organics recycling? **Recycle right!** Check out the Green Living Resource Page and Recycle Coach app at www.cityoflaurel.org/green, and follow us on our Facebook page, @SustainableLaurel. This is a place where we can share ideas, highlight upcoming events and residents can stay informed on all things Sustainable. We've been working hard to update our pages, so make sure to stop by and find out how you can be sustainable, how our neighborhoods are doing on our new dashboard and find the resources you need to continue composting right!

New Resource Guide in 2026! We are trying something new! Look for the **2026 Guide to Services: Sustainability and Public Works**, where you will find in-depth information about how to recycle right, best practices for organics diversion, monthly event reminders and much more!

Don't forget to "Tree-cycle!" Once the holidays are over, reminder to tree-cycle your Live Christmas tree by placing them at the curb by 7:00am every Wednesday throughout January for recycling. Your tree will be tree-cycled into a variety of new products, like mulch, compost, or animal bedding. Remember to remove all decorations, icicles, lights, wire, tree skirts, stands and nails. And if you plan on tree-cycling, **DON'T** use fake snow on your tree or we won't be able to accept in January. **DO NOT** place your tree in a plastic bag, use an old sheet to take your tree outside, place it at curb and remove the sheet.

There is so much you can do to help make Laurel a Sustainable community! If you have any questions or need some guidance, email us at greenliving@laurel.md.us! Thank you for helping us make 2025 a Green year!

Emergency Management: Cleaning Up After the Holidays!

Post Holiday Cleaning Tips

The holidays can do a number on your home! Between visitors, holiday feasts, and kids on school break, your home probably needs some TLC. Use these cleaning tips to stay happy, healthy, and safe in the New Year.

From boxes to wrapping paper to leftovers, we acquire many things during the holidays. Figure out what can be recycled or trashed.

Prevent house fires after Christmas by discarding your tree when it is dry. A dry tree burns very hot and fast.

Disinfect and deep clean your house's surfaces to prevent seasonal illnesses such as the flu.

Prepare your home for winter weather by reducing slip hazards. Place a boot tray or mat near entryways so wet boots don't create slippery surfaces. Keeping walkways dry and organized helps prevent falls.

Americans throw away 25% more trash between Thanksgiving and New Years Day.
